India's Building Materials Power House

“Our business in life is not to get ahead of others but to get ahead of ourselves - to break our own records, to outstrip our yesterdays by our today, to do our work with more force than ever before. Finally, create wealth & well being for our customers, shareholders, society & the nation at large.”

Credibility Since 1909

◀ Mission ▶

“Our mission is earning the loyalty of our customers by providing the highest level of excellence in our products & services; pushing ourselves to the limit by accepting challenges and taking decisions that encourage growth and serve the path for fulfillment of the goals of the company and its members.”

◀ Vision ▶

“To extend our leadership in the Building, Construction, & Infrastructure material supplies with a PAN India presence by the year 2010.”

◀ Aspiration ▶

“ To make Indian infrastructure of a world class standard by supporting our customers with the supply of international quality materials at globally competitive norms.”

◀ Legacy ▶

“The company originated in India importing & trading in Timber, Plywood and other allied products. The heritage of the business runs in the Late Miya Ahmed Darvesh family for almost a century. We take pride in being the first group of importers of timber in India and the legacy of being the leader continues...”

◀ A Message From the Board of Directors ▶

Since 1909, *Farouk Sodagar Darvesh Group* has met the needs of customers and business associates through core business of Timber & Plywood; while also offering products & services from growing synergistic business segments which include Building, Construction & Infrastructure materials supply.

Our principle philosophy is that the best companies are not simply the largest and most famous but those which gain the respect of their customers, employees and society at large. These same companies seek to maximize profits and search for long term solutions. At Farouk Sodagar Darvesh Group, we are always mindful that our performance and reputation are a direct function of our devotion and determination to achieve total customer satisfaction in all our activities. From our sales team to our corporate board, we strive for the highest possible levels of satisfaction among customers, business associates, and employees.

We are determined to play a critical role in ensuring that Indian Infrastructure becomes of a world class repute. Infrastructure development creates wealth and enables individuals and families to prosper, while playing a vital role in the health of our country's economy.

Thank you for choosing Farouk Sodagar Darvesh & Group as your trusted Building, Construction & Infrastructure materials partner.

We are eager to serve your needs and count you among our satisfied business associates.

Yours sincerely,

Ebrahim S. Darvesh
- Joint Managing Director

Mohammed Farouk S. Darvesh
- Chairman

Oosman S. Darvesh
- Joint Managing Director

◀ About Us ▶

The major thrust of our professional activities, and core area of competence lies in sourcing timber, steel, construction materials and vending value-added end products through timber processing and closely monitoring steel bar and other Building, Construction & Infrastructure material production for quality and time efficiency. In the past two decades, activity in timber, steel, building, construction & infrastructure material trade has witnessed exponential growth. This growth has empowered our group towards manufacture & supply of processed value-added Timber, Plywood, Veneer, Block Board, Chip Board, MDF, Flush Doors, TMT Steel bars, CTD Steel bars For 40 Steel bars, Binding Wires and allied Building, Construction & Infrastructure materials. At Farouk Sodagar, we continually expand our already extensive product range and support it with comprehensive technical knowledge & expertise to ensure high level of services, that our customers have come to expect of us.

Our purchase policy is guided by environmental concerns, and we ensure that our approved vendors & our manufacturing units follow environmentally safe and internationally accepted practices.

◀ Timber ▶

- Burmese Teak
- African Teak
- Iroko of West African Origin
- Red Meranti & Red Wood of Malaysian Origin
- Silver Oak
- Pine & White Wood of Chilean, Romanian, New Zealand & Canadian Origins.

Decorative Timber:

Ash, Cherry, Oak, Beech Mahogany, Maple, Sycamore, Walnut, Ebony, Wenge, Olive, & Rose Wood of American, European & African Origins.

All of the above timber is available in logs, squares and cut section sizes which can also be Kiln Dried or Air Dried along with Chemical Copper Chrome Boric treatment on customer's request.

Applications:

Paneling, Interior Decoration, Door, Frames, Windows, Hand rails, Skirting, General Mouldings, Exterior Cladding, Furniture and Furniture Parts, Turning, Dowels, Handles, Cabinets, Sports Goods, Musical Instruments & Flooring.

◀ Plywood ▶

- BWP Marine Plywood

BWP Marine Plywood is made of selected 100 per cent Gurjan Timber (*Dipterocarpus* species). Classified under Class-I, this is a naturally durable timber from the richest Gurjan timber forests in Myanmar.

Standard Size : 8' x 4' (2440 mm x 1220 mm)

Thickness : 3, 4, 6, 8, 12, 15, 18 mm

Grade : Our BWP Marine Plywood is manufactured as per BS, DIN and JPIC International standards and not only confirms but also exceeds the specifications of IS : 710 – 1976 BWP Marine Plywood.

Applications : Kitchen Cabinets, False Ceiling, Ship Cabins, Bathroom Paneling, Bus and Truck Bodies, Freight Containers, Construction Works, Porta Cabins, Bunker Houses.

It is being manufactured at our state – of – the – art plant located in South India with ISI Certified quality mark and an ISO 9001:2000 Quality System.

◀ Plywood ▶

- Premium Commercial Plywood

This General Purpose Plywood is made from selected durable species of timber, hot pressed and bonded with synthetic resin adhesive.

Standard Size : 8' x 4' (2440mm x 1220mm)
8' x 3' (2440mm x 920mm)
7' x 4' (2140mm x 1220mm)
7' x 3' (2140mm x 920mm)
6' x 4' (1840mm x 1220mm)
6' x 3' (1840mm x 920mm)

Thickness : 3, 4, 6, 9, 12, 15, 18, 25 mm

Applications : Ideal for use in Interiors of Offices for Paneling, Partitions, Cabinets, Shelves, Cupboards, Computer Furniture and tables, for Living Room and Bedroom Furniture in Residences.

It is being manufactured at our state – of – the – art plant located in South India with ISI Certified quality mark and an ISO 9001:2000 Quality System.

◀ Plywood ▶

- **BWP Film Faced Plywood**

This International Quality Plywood Is The Favourite Amongst Builders, Developers And Contractors.

Standard Size : 12 mm

Thickness : 8'x4' (2440 mm x 1220 mm)

Grade : The basic plywood is made up of special selected hardwood and bonded with synthetic / phenol formaldehyde resin, overlaid with phenolic film, and edges are sealed with polyurethane paints. It meets the requirements of BS 6566 / WBP, DIN 68705 / BFU 100 or JPIC 1968 / 1973 and IS:4990 1993, and is suitable for High Quality Concrete Shuttering Formworks. Special Densified Film Faced Plywood is also available for reducing your cost & increase in the repetitions.

Applications : Wall Form, Quality Concrete Shuttering Formworks, Table, Tunnel, Cast -in-Situ, Special Casting, Columns, Walls, Beams, Slabs, Any kind of vertical and Horizontal Concrete Formworks.

It is being manufactured at our state – of – the – art plant located in South India with ISI Certified quality mark and an ISO 9001:2000 Quality System.

◀ **MDF-Medium Density Fibreboard** ▶

MDF is a type of hardboard, which is made from wood fibres glued under heat and pressure.

Advantages: - MDF is dense, flat, stiff, has no knots and is easily machined. Because it is made up of fine particles it does not have an easily recognisable surface grain. MDF may be dowelled together and traditional woodwork joints may even be cut. MDF may be glued together with PVA wood glue. Oil, water-based paints and varnishes may be used on MDF. Veneers and laminates may also be used to finish MDF. Some other sizes can also be made available with melamine surface (Pre-Laminated MDF) with different prints & finishes as per your needs.

Standard Size : 8' X 4' (2440 mm x 1220 mm)

Thickness : 2.5 mm to 25 mm

Grade : Interior / Exterior Grade (Humidity & Moisture Resistant) / Fire Resistant Grade.

Applications : MDF can be used to make furniture systems, kitchen cabinets, bedroom sets, dining sets, TV racks, speaker boxes, flooring, decorative doors, panel mouldings and much more...

◀ Chip Board ▶

Chip Board or Particle Board is an engineered wood product manufactured from wood particles, such as wood chips, sawmill shavings, or even saw dust, and a synthetic resin or other suitable binder, which is pressed and extruded. Particle board is a type of fibreboard, a composite material, but it is made up of larger pieces of wood than medium-density fibreboard and hardboard.

Particle Board is cheaper, denser and more uniform than conventional wood and plywood and is substituted for them when appearance and strength are less important than cost. Particleboard's main selling point is its PRICE. However, it has several other significant advantages. One of these is its stability. This stability enables new design possibilities.

Standard Size : 8' x 4' (2440 mm x 1220 mm), 8' x 6' (2440 mm x 1840mm), 9' x 6' (2750mm x 1840mm)

Thickness : 9mm, 12mm, 18mm, 25mm and 30mm

Grade : Standard Chip Board Grade

Pre Laminated Melamine Face Chip Boards (MFC) are also available in various prints and finishes.

◀ High Pressure Laminates ▶

Decorative Laminates : More commonly known as "SUNMICA", are being widely used in furniture fabrication. It is a very good substitute to paints, varnish, veneer, melamine and furniture foil because of its durability. It is available in various beautiful designs like wood veneer, plain colors, fancy designs. It is also available in embossed finishes like leather, jute, stone, cane, fabric & natural fine lines. The latest trend is real fabrics and real metal clad laminates in various embossed and different metals like copper, aluminium and bronze.

Standard Size : 8' x 4' (2440 mm x 1220 mm)

Thickness : 0.8mm upto 25mm

Grade : Standard HPL, Postforming, Compact Laminates, Industrial Laminates & Anti-Static Laminates

Applications : Furniture, Ceiling, Partition, Cupboard Shutters, Kitchen Cabinets, Railway, Airplanes, Shipping, Bank Counter stands & also has vast use in Industrial Grades like gears, Switchboards and many more...

◀ Flush Doors ▶

Flush Doors are made from hardwood styles & rails with block boards core & cross bands. The face veneers are bonded together under heat and pressure using BWP type Pf Synthetic resin adhesive confirming to IS: 2202:1991.

The cross bands are from selected hardwoods uniformly dried to the required moisture content and then bonded with special phenol formaldehyde synthetic resin. Flush Doors are chemically treated for termite & borer resistance

Standard Sizes : Made to Required Sizes.

Thickness : 30, 32, 35, 38, 40, & 45 mm

Flush Doors are available in three types:

- Commercial : With face veneers from selected commercial hardwood.
- Decorative : With one or both sides face veneers from decorative timbers like teak etc.
- Laminated : With laminates of customer's choice.

Applications : Doors in Buildings, commercial housing and office space.

It is being manufactured at our state – of – the – art plant located in South India with ISI Certified quality mark and an ISO 9001:2000 Quality System.

◀ Steel ▶

We are also an active support provider to builders, construction contractors & infrastructure developers by providing them construction materials i.e. Steel Bars, (Tor Steel, Fe 415, TMT 500,) M.S.- Angles, Structures, Binding Wires, M.S.- Plates and M.S. Pipes, to fulfill their relevant requirements qualitatively and quantitatively on time and anywhere. We provide services to suffice our customers' needs by using state of the art technology through innovation and active leadership. All products match international standard quality and have the ISI 1786 Quality Process Stamp of Approval.

Thickness : 8, 10, 12, 16, 20, 25, 32 (mm)

Length : 36', 40' & Special Lengths.

Quality : TMT - 415, TMT - 500 & Tor - 40

Applications: In the construction of any kind of horizontal and vertical concrete framework i.e. Buildings, Bridges, Beams, Flyovers, Pillars, Slabs etc.

◀ Supply Network ▶

Perhaps one of the greatest benefits Farouk Sodagar Darvesh Group offers customers is our **GLOBAL SOURCING NETWORK**. By buying from Farouk Sodagar Darvesh Group, you tap into the resources of our many partner associates. You can “**ONE-STOP-SHOP**” for all of your Building, Construction & Infrastructure material needs. Accessing our network can save you time and money; hence we say that buying from Farouk Sodagar not only makes “economic sense” but also “common sense”

◀ People ▶

People make the real difference at Farouk Sodagar Darvesh Group. At Farouk Sodagar Darvesh Group we believe that wherever we happen to be, we must treasure our manpower and material resources, and must not take a short view and indulge in wastefulness and extravagance. Our sales team focuses non-stop on providing **CREATIVE SOLUTIONS** to your Building, Construction & Infrastructure material needs. Whether you need tailor made grades, customized products or specialized delivery systems or schedule; let Farouk Sodagar work for you.

◀ We Care ▶
